

Latest covid19 Player Guidelines 11-23-20

CP softball update- As we progress toward the regular season, the Executive Board wants to update its members. First thanks to John Badger Kathy Benokovitch and Roman Hawyluk for establishing the covid guidelines with Murex. The guidelines are currently in place for preseason. So far the mask requirements for spectators and social distancing are being well received and adhered to. It is so important to keep these safeguards up. We would like new arrivals to the park to stay away from the fields for a minimum of 1 week before you start playing games or spectating. We have also made several decisions about the League. There will not be an annual meeting, there will however be a complete annual meeting report on this website. The Tiki Hut will only have drinks available for now. Las Vegas night and Street Dance are cancelled. There will be a modified Opening Day ceremony. The good news is we can still have a regular season as long as we maintain the guidelines. Thanks to everyone working together to get thru this. CP Executive Board.
